

KS4 – Year 11 – History

Term	Topic Titles	Brief Overview
1	Medicine in Britain, c1250–present	Students spend the first term looking at medical developments from 1250-1900, during Medieval, Renaissance, and Industrial Britain. This considers changing ideas about the causes, preventions and treatments of illness, and developments in medical care throughout these periods.
2	Medicine in Britain, c1250–present	Students spend the second term looking at the medical developments in the modern period (1900-present) and the 'historic environment' depth study; medical developments in World War One on the Western Front 1914-1918
3	Revision	Once content is finished, students spend the remaining time completing exam skills focused revision lessons for core skills from across the different exam papers, question types, and topics.
