Dear Parents/Guardians of Year 11 & 13 Students

Summer 2022 Examinations - Exam Boards Advance Information

Today the exam boards published the advance information for the summer examinations.

We are in the process of collating all this information for Years 11 and 13 and will share this with you and your child as soon as we can.

Heads of Subjects and teachers will also review the information to evaluate how best to use it to support your child with their revision and exam preparation. Further details will be communicated with you and your child, but, at this early stage, we would like to make you aware of the following key pieces of information:

- For most subjects content has **not** been removed – students will still be required to learn the entire course to enable them to answer synoptic questions, short answer and multiple choice questions
- Arden teachers will cover the entirety of each course to enable progression to the next level of education as well as to enable exam success
- Revision lists have already been sent to Year 11 and 13 students for the TAG2 assessments. There is insufficient time to alter these assessments in relation to this information. If TAG 3 assessments are required we will ensure they match the information in the advance information.

In anticipation of the release of this information we have also scheduled assemblies with both Year 11 and 13 to explain to all our students what the information means and how best to utilise it. These assemblies will take place this week.

In addition to the advance information, we will also share with you which subjects will require revision of the whole course and those where it appears some content will not be examined.

Arden has no control over the content of the advance information. If you are dissatisfied or wish to complain please could you direct your concerns directly to Ofqual using their complaints procedure:

<https://www.gov.uk/government/organisations/ofqual/about/complaints-procedure>

We will write to you again with much more information and advice over the next few weeks. Please bear with us whilst we process all the information sent by the exam boards and be reassured that we will always do all we can to ensure the best possible outcome for your child and all our students.

Yours sincerely
