Dear Parent/Guardian

We would like to invite you, as parents of Year 12 students, to an information evening on **Wednesday 20th May** (originally scheduled for Wednesday 13th May). The evening will start at **6.30pm** and will be held in the Sixth Form Common Room. We anticipate the meeting to last no more than one hour.

The focus of the evening will be to provide you with information on a range of Post 18 Options that are on offer to school leavers. Students have been provided with information throughout the year, but we are conscious that this doesn't always get through to home. If University is the preferred option for the student, then there is a need to understand the UCAS process, as well as deciding what to study and where to study. If they are considering other options to University, what else is out there? Students may be intending to take a gap year, however, it is vital that they, and you as parents, understand how the process works for any future applications.

We hope you can join us for this important evening in making the next steps, beyond A Levels. This meeting is intended for parents only as students have already been given this information in assemblies.

Best wishes
Mr White
Head of Sixth Form
&
Miss Long
Head of Year
